ABOUT ME

Community Manager & Moderator with 4+ years in DeFi, GameFi, DePIN, and NFTs. Built Discord and Telegram communities from zero and revived inactive chats into active ones. Experienced across bull runs, sideways markets, and heavy drawdowns, maintaining stability while sentiment swings. Handles FUD, resolves user issues quickly, and keeps chats alive without fake hype or forced engagement. Focused on building communities people stay in, not just moderating them.

SKILLS

- Community Moderation & Engagement
- FUD & Crisis Management
- Fraud / Scam Detection (Spam & phishing reduction)
- Wallet & Transaction Support
- Conflict Resolution
- Bug Reporting & User Issue Triage
- Announcements & Clear Communication

TOOLS & PLATFORMS

- Telegram, Discord, Zendesk
- Wallets (EVM & Multi-Chain)
- Blockchain Explorers
- Arkham (On-chain Analysis)
- CEX & DEX
- NFT Platforms
- Notion, Google Sheets
- Dyno, MEE6 (Moderation Bots)

Superior University | 2020 – 2025

LANGUAGES

English	Fluent Written
Urdu	Native
Arabic	Basic

EXPERIENCE

2021 – Present

COMMUNITY MANAGER & MODERATOR

Web3 Projects | Remote

- Managed and scaled communities of **5K–100K+** members across Discord & Telegram
- Resolved **50–150+ daily** user queries with consistent response efficiency
- Actively reduced spam, scams, and phishing attempts through strict moderation and monitoring
- Provided support for wallet issues, transactions, KYC, and exchange-related queries
- Handled high-traffic launches, NFT drops, and airdrops without chat going to chaos
- Controlled FUD and stabilized community sentiment during volatile market conditions
- Escalated technical and blockchain-related issues, improving resolution turnaround

PROJECTS & CONTRIBUTIONS

Core Projects (Community Management & Moderation)

- *CapturGo* | Community Engagement & Moderation
- *Unblocked* | Community Manager
- *MarginlyFi* | Community Moderator
- *Dexodus* | Community Manager (Activity & Moderation)
- *EarnAlliance* | Community Manager

Additional Contributions

(Community Support, Feedback & Testing)

Peaq, Grass, NodePay, Dawn, IONet

Supported community engagement, feedback collection, and user interaction

Plume, Pharos, RWA.io

Assisted in user support, early-stage testing, and content input

ACHIEVEMENTS

- Maintained **high engagement** with **low spam/scam** incidents across communities
- Known for fast response time and effective issue resolution
- Supported smooth handling of high-traffic events (airdrops, launches)
- Improved onboarding experience for new users
